IMPACT OF TOURISM ON THE SOCIO-ECONOMIC STATUS OF NANDUARA VILLAGE, RAGHUNATHPUR -1 BLOCK, PURULIA

EXAMINED
Department Of Geo
NISTARINI COLL
PURULIA

Summary:

The report has been prepared to focus on the impact of tourism on socio-economic status of Nanduara village in Raghunathpur-1 Block of Purulia District. The report has been analysed and made based on the secondary data sources i.e. from census report, published articles, the internet etc. Demographic analysis has revealed that the sex ratio is relatively lower than the district's profile and literacy rate also low. However, the level of education among the individuals have not been analysed due to lack of data which suggest a primary field survey is required to collect specific educational data. Analysis of economic aspects of the households has exposed that share of marginal workers is high than the main workers which indicates dependency on tourism sectors. Study of household infrastructure and basic services has shown various aspects that need careful provision of administration such as drinking water sector, health sector, education sector etc. As concluding remarks it can be said that, being a village from one of the backward areas of the purulia district, which is well known

STUDY NOTES
MAM ROY

and renowned for the tourist place named by "Joychandi Pahar". The transport communication, both State Highway (SH) and railway connection helps to visit the tourist and other visitors for its attractiveness, research purpose and kinds of artifacts. Therefore, it can be suggested that the government initiative and planning, tourism development authority, NGO's to be helpful further improvement of Ecotourism and Sustainable Tourism through the improvement of basic infrastructure, services and economy to some extend to grip the village fame and sustainable development.
