

Department of Economics

Report on Continuous Evaluation Assessment

Continuous Evaluation Assessment evaluates the student throughout the entire learning process. This process facilitates the assessment of their knowledge and acquired skills. It is an excellent method for testing the improvement of academic performance of the students. Students are familiarized with the internal Assessment process by their teachers in the beginning of every semester. In UG, After 30 to 40 days of first induction meeting, department of Economics has decided to take an assessment through class test or through Oral question answer session, or through Viva Voce. Department set a question paper of 10 marks for internal evaluation in the CBCS semester system. After publishing results of the test the department divides the students into three categories viz. Advance Lerner, Average Lerner and Slow Lerner.

Marks Range(Theory)	Learning Status
70 % and above	Advanced Learner
50% to 69%	Average Learner
Below 50%	Slow Learner

After the completion of class test department gives their feedback and also provide inputs for improvement. The department arranges tutorial classes for the benefits of the advanced Learners and remedial classes for the benefit of Average and Slow Learners. This process will continue throughout the year. Department always encourage Students to attend classes regularly and if a student is absent, the teachers make efforts to know the reason for absence. During lockdown Students submit their assignments through online mode. Lastly Students are also monitored during class.
